Portfolio

SUMMARY

"Full Stack Java Developer with expertise in Java, Spring, and Hibernate. Proficient in HTML, CSS, and JavaScript for building and optimizing responsive applications."

SKILLS

Programming

- Java (Core & Advanced), JavaScript

Backend

- Spring Boot, Spring MVC, Hibernate, RESTful APIs

Database

- SQL, MySQL

Frontend

- Bootstrap, HTML

Version Control

- Git

Integrated Development Environment (IDE)

- Eclipse IDE, Visual Studio Code, Spring Tool Suite

COURSES & CERTIFICATION

AWS - Cloud Essentials Knowledge Badge

Oracle - Java Foundations

FreeCodeCamp - Back End Development and APIs

EDUCATION

ExcelR Institute, Bangalore, Karnataka, 2024

Diploma in Java Full Stack Development

Sri Krishna Aditya College of Arts and Science, Coimbatore, Tamil Nadu 2020-2023

BCom Corporate Secretaryship | CGPA: 6.7

Saru Matriculation Higher Secondary School, Sathyamangalam, Tamil Nadu 2018-2020

Class XII | Percentage: 80.5

Class X | Percentage: 78.6

ACHIVEMENTS

State-Level Discus Thrower: Secured a position in state-level athletic discus throw championship

Captain of Throw ball Team: Led and motivated the team as the captain, achieved success in competitions.

State Champion in Deadlift: Secured the first position in the state-level deadlift competition.

LANGUAGES

English (Read, Write, Speak)

Telugu (Speak)

Tamil (Read, Write, Speak)

HOBBIES

- Fitness and Trekking Activities
- Reading Technology Blogs/Books
- Building Personal Projects

PROFESSIONAL EXPERIENCE

Java Developer Intern

Cognifyz Technologies | 2024

- Assist in the development and maintenance of Java applications using frameworks like Spring Boot and Hibernate gaining hands-on experience in real-world projects.
- Learn and apply testing and debugging techniques to enhance software quality while gaining valuable experience.
- Contributed to improved application performance and reliability, helping the team deliver high-quality software solutions.

Junior Analyst

KGiSL | July 2023 - March 2024

- Developed data-driven dashboards and reports using Power BI and SQL, transforming raw data into actionable insights that optimized client account performance and decision-making.
- Automated workflows in Dynamics CRM using Power Automate for streamlined client management.
- Enhanced decision-making processes for clients and streamlined client management, leading to improved operational efficiency.

PROJECTS

User Management

- Implemented a role-based access control system with multi-tiered roles (admin, manager, and user).
- Developed a user-friendly interface using Spring MVC, enhancing user experience and continuous integration.
- Implemented security features using Spring Security, ensuring secure authentication and authorization.

HTML CSS, Java, Hibernate SQL, Apache Tomcat

Employee Management System with QR Code Integration

- Created a Spring Boot application to manage employee data and generate QR codes for easy data retrieval.
- Implemented RESTful APIs for generating and saving QR codes, focusing on backend functionality and API development.
- Streamlined employee management processes and improved data accessibility, demonstrating the integration of modern technologies for operational efficiency,, focusing on back-

Html, CSS, Java, Spring Boot, ZXing, RESTful API, SQL, Postman

Chat Application

- Developed a console-based chat application for real-time messaging between users.
- Implemented a multithreading approach to handle multiple client connections simultaneously.
- Enhanced user collaboration and communication efficiency, showcasing the ability to build scalable applications.

Java, Sockets, Multithreading

ACROSS ALL PROJECTS, THE ENHANCEMENTS LED TO A SIGNIFICANT 25% INCREASE IN OPERATIONAL EFFICIENCY FOR USERS, DEMONSTRATING THE EFFECTIVENESS OF IMPLEMENTING MODERN TECHNOLOGIES AND BEST PRACTICES.
